In collaboration with

FREE online end of life/palliative care education for Covid & non-Covid patients

As we continue to face this unprecedented situation, we will all have to talk more about dying and end of life care. To help support you through the COVID-19 crisis and beyond, we are proud to be launching a new 6 month pilot of educational support for GPs.

Bite size learning via MS Teams

Commissioned by Birmingham & Solihull CCG and hosted by Birmingham St Mary's Hospice in collaboration with Marie Curie, this new curriculum of 40-60 minute live webinars is delivered by Palliative Care experts via MS Teams.

You are invited to a unique opportunity to access these **free** webinars to support you and your practice during these challenging times. Launching on Monday 18th May with Advance Care Planning, the rolling schedule of training covers a range of informative topics* to help you support Covid and non-Covid patients. Each live webinar is free to join and will enable you to share and learn from experiences, and will equip you with the tools and resources you need to confidently manage difficult conversations and support this complex patient group & carers.

Curriculum - May and June 2020

Webinar topic	Date	Time
May		
Advance Care Planning	Monday 18 th May	18:00
