University Hospitals Birmingham NHS Trust Virtual PracticAllergy Course

We are pleased to announce the 13th edition of the PracticAllergy Course.
26 November 2020 Online Event 10:00 - 16:05

Due to COVID-19 and government guidelines, this years event will be delivered virtually as a single day course focused around live interactive case based topics. Registered delegates will have access to pre-recorded speaker presentations on topics for pre and post event reading.

The panel includes internal and external speakers providing a practical approach to commonly-encountered allergy problems. This course has been endorsed by the British Society for Allergy and Clinical Immunology (BSACI).

The course is designed to be of benefit to any general or specialist healthcare professional who has had little formal training in allergy, but who see patients with allergic conditions as part of their clinical activity. Increased confidence in recognising, assessing and treating common allergy presentations will be acquired through multi-professional case-based teaching and demonstrations.

Pre recorded presentations available to registered delegates will include:

- **Diagnostic Tests in Allergy**
- **Food Allergy for Primary Physicians**
- **Asthma Management in Adults in Primary Care**
- **Rhinitis and Asthma Management in Children in Primary Care**
- **Atopic Dermatitis Management in Primary Care**
- **The Burden of Spurious Penicillin Allergy**
- **Practical demonstrations: SPTs, Inhalers, Nasal Sprays, Adrenaline Autoinjectors**

Organisers: Professor M T Krishna & Dr A P Huissoon.

Course fee: The course and registration fee are fully sponsored

Administration: Mrs Sally Rooke: **0792 079 3095** or email: sally.rooke@thermofisher.com
